INDEPENDENT AUDITOR'S REPORT

**To the Board of Directors
SilverCreek Water and Sanitation District
SilverCreek, Colorado**

Report on the Financial Statements

We have audited the accompanying financial statements of SilverCreek Water and Sanitation District (the "District"), as of and for the years ended December 31, 2019 and 2018, which collectively comprise the District's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of SilverCreek Water and Sanitation District as of December 31, 2019 and 2018, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT
To the Board of Directors
SilverCreek Water and Sanitation District
SilverCreek, Colorado

Other Matters

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis in Section B be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Management's Discussion and Analysis in Section B in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's financial statements as a whole. The individual fund budgetary comparison in section E is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information in section E is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information in section E is fairly stated in all material aspects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

SilverCreek Water and Sanitation District Management's Discussion and Analysis December 31, 2019 and 2018

We, the financial managers of SilverCreek Water and Sanitation District (the "District"), offer readers of the District's financial statements this narrative summary of the financial activities of the District for the fiscal years ended December 31, 2019 and 2018.

Financial Highlights

- The District had net income of \$115,263 in 2019 as compared to net income of \$95,270 in 2018. District assets exceeded its liabilities by \$2,073,778 and \$1,958,515 at December 31, 2019 and 2018, respectively.
- The District increased total revenues and increased total expenses in 2019. This allowed for a change in cash and investments from \$1,108,262 in 2018 to \$1,273,441 in 2019.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of two components: 1) financial statements; and 2) notes to the financial statements. These components are discussed below.

Financial Statements: The financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all the District's assets and liabilities (both short-term and long-term), with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Fund Net Position shows how the government's net position changed during the years presented. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave.)

The Statement of Cash Flows shows the District's sources of cash inflows and outflows for the years presented. Cash flows are categorized among operating, non-capital financing, capital and related financing and investing activities, and unlike items reported in the Statement of Revenues, Expenses and Changes in Fund Net Position, these amounts are reported on the cash basis of accounting.

The business-type activity of the District relates to sanitation services. There are currently no governmental-type activities occurring at the District.

The District's financial statements can be found in Section C of this report.

Proprietary Funds: The District maintains a proprietary fund commonly known as an enterprise fund. Enterprise funds are used to report business-type activities. The District uses an enterprise fund to account for its water and sanitation services.

Overview of the Financial Statements (continued)

Notes to the Financial Statements: The notes provide a background of the entity, certain required statutes, and accounting policies utilized by the District. They also provide additional information that will aid in the interpretation of the financial statements. The Notes to the Financial Statements can be found in Section D of this report.

Other Information: In addition to the basic financial statements and accompanying notes, this report also conveys certain supplementary information. The Schedule of Revenues and Expenditures - Budget (Non-GAAP Basis) and Actual with Reconciliation to GAAP Basis provides a detailed comparison of the District's actual revenues and expenditures to budgeted amounts. As the District's budget was adopted in a manner that is not consistent with Generally Accepted Accounting Principles ("GAAP"), this statement is presented on a non-GAAP basis with reconciliation to GAAP basis. Supplementary information can be found in Section E of this report.

Financial Analysis of the District:

The following table shows the District's assets, liabilities and net position at the end of 2019 and 2018:

	<u>2019</u>	<u>2018</u>
Assets:		
Current assets	\$ 1,434,358	\$ 1,229,329
Capital assets	860,497	898,247
Total Assets	<u>2,294,855</u>	<u>2,127,576</u>
Liabilities:		
Other liabilities	62,724	45,542
Long - term liabilities	7,161	8,445
Total Liabilities	<u>69,885</u>	<u>53,987</u>
Deferred inflows of resources:		
Unavailable property tax revenue	151,192	115,074
Total Liabilities	<u>221,077</u>	<u>169,061</u>
Net Position:		
Net investment in capital assets	860,497	898,247
Restricted	9,000	8,000
Unrestricted	1,204,281	1,052,268
Total Net Position	<u>\$ 2,073,778</u>	<u>\$ 1,958,515</u>

In 2019, the District's total net position increased by \$115,263. The District has a significant portion of its net position invested in capital assets. The capital assets are used to provide services to the District's customers.

Overview of the Financial Statements (continued)

Financial Analysis of the District (continued):

The following table summarizes information relating to the District's Statement of Revenues, Expenses and Changes in Fund Net Position:

	<u>2019</u>	<u>2018</u>
Revenues:		
Program revenues:		
Charges for services	\$ 141,458	\$ 123,294
General revenues:		
Property taxes	115,045	113,256
Specific ownership taxes	9,883	8,206
Investment income	22,849	15,972
Rent income	1,284	1,283
Miscellaneous	5,025	5,032
Total Revenues	<u>295,544</u>	<u>267,043</u>
Expenses:		
Operating expenses:		
Personnel services	64,507	63,695
Facilities and maintenance	17,730	15,172
Professional services	23,073	24,953
Administrative	37,221	30,186
Depreciation	37,750	37,767
Total Expenses	<u>180,281</u>	<u>171,773</u>
Change in Net Position	115,263	95,270
Net Position - Beginning of Year	<u>1,958,515</u>	<u>1,863,245</u>
Net Position - End of Year	<u>\$ 2,073,778</u>	<u>\$ 1,958,515</u>

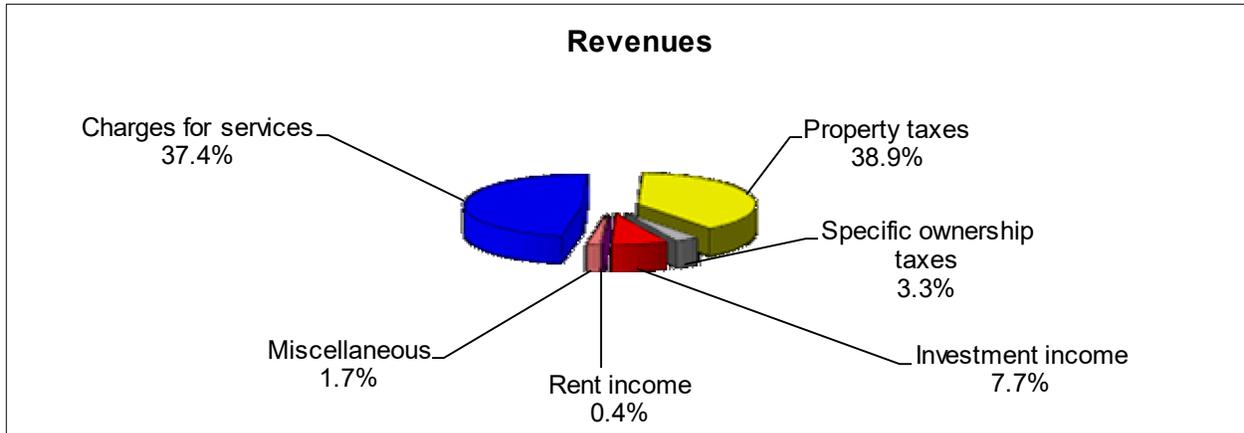

Overall, the District had a positive year, with both revenues and expenses increasing from 2018. The revenue increase from 2018 was primarily attributed to an increase in new taps sold, in addition to an increase in investment income because of higher average cash and investment carrying balances. The increase in expenses from 2018 was due to the exterior painting of the administrative office.

Overview of the Financial Statements (continued)

Financial Analysis of the District (continued):

The following chart summarizes the District's revenue sources during 2019:

The following chart summarizes the District's expenses, by natural classification, during 2019:

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

Budget Variances in the Enterprise Fund

The District budget was not amended for the 2019 fiscal year; the actual expenditures for the District were lower than budgeted amounts by \$56,598.

Significant budget variances were as follows:

	<u>Final Budget</u>	<u>Actual</u>	<u>Variance Positive (Negative)</u>	<u>Reason</u>
Revenues:				
Charges for services	107,752	141,458	33,706	Sold more taps than budgeted; tap revenue is difficult to budget
Investment income	16,000	22,849	6,849	Higher than anticipated cash balance earning interest in ColoTrust
Expenses:				
Contract labor	10,000	-	10,000	No contract labor needed in 2019
Repair and maintenance	20,000	2,684	17,316	Conservative budgeting
Other services	15,000	-	15,000	Engineering services not needed in 2019
Office expense	29,000	17,955	11,045	Conservative budgeting

Capital Asset and Debt Administration

Capital Assets: The District's net capital assets decreased by 37,750 in 2019. The decrease is directly related to depreciation expense for the current year. There were no additions in 2019. A detailed classification of the District's capital assets can be found in the Notes to Financial Statements in Section D of this report.

Long-term Debts: The District has no long-term bonded debt outstanding.

Next Year's Budget and Rates

The District's net position at the end of 2019 was \$2,073,778. The District's 2020 budget anticipates increasing this balance by \$55,507.

Request for Information

This financial report is designed to provide a general overview of the District's finances for all interested parties. NOTES TO THE FINANCIAL STATEMENTS

SilverCreek Water and Sanitation District
Notes to the Financial Statements
December 31, 2019 and 2018

I. Summary of Significant Accounting Policies

SilverCreek Water and Sanitation District (the "District") is a quasi municipal corporation and a political subdivision of the State of Colorado. It was formed under Colorado statutes as a special district in 1982 pursuant to a service plan approved by the Board of County Commissioners of Grand County, Colorado. The District provides water and sanitary sewer services in an unincorporated area located south and east of the historic area of the Town of Granby. The District has a five-member board of directors who are elected by district residents on a biennial basis.

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established by GAAP used by the District are discussed below.

A. Reporting Entity

The reporting entity consists of (a) the primary government; i.e., the District, and (b) organizations for which the District is financially accountable. The District is considered financially accountable for legally separate organizations if it is able to appoint a voting majority of an organization's governing body and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. Consideration is also given to other organizations, which are fiscally dependent; i.e., unable to adopt a budget, levy taxes, or issue debt without approval by the District. Organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are also included in the reporting entity.

Based on the criteria above, the District is not financially accountable for any other entity nor is the District a component unit of any other government.

B. Accounting Policies

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions and activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The District uses a proprietary fund-type, an enterprise fund, to account for its sole activity, providing water and wastewater treatment services to taxpayers within the District's boundaries. Enterprise funds are used to account for operations (a) which are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

SilverCreek Water and Sanitation District
Notes to the Financial Statements
December 31, 2019 and 2018
(Continued)

I. Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements. Financial statement presentation refers to classification of revenues by source and expenses by function.

1. Long-term Economic Focus and Accrual Basis

Proprietary funds use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

2. Financial Statement Presentation

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Financial Statement Accounts

1. Cash and Cash Equivalents

Cash and cash equivalents are defined as deposits that can be withdrawn at any time without notice or penalty and investments with original maturities of three months or less.

2. Investments

The District has implemented the accounting and reporting requirements of Governmental Accounting Standards Board (GASB) No. 31, *Accounting and Financial Reporting for Certain Investment Pools*. Under GASB 31, certificates of deposit and U.S. Treasury Bills with an original maturity date of one year or less are reported at amortized cost. At December 31, 2019 and 2018 the investments for the District are reported at fair value or net asset value.

3. Receivables

Receivables are reported net of an allowance for uncollectible accounts. However, no allowance for uncollectible accounts has been established at December 31, 2019 and 2018, as the District considers all accounts to be collectible.

SilverCreek Water and Sanitation District
Notes to the Financial Statements
December 31, 2019 and 2018
(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

4. Property Taxes

Property taxes attach an enforceable lien on the property as of January 1st. Taxes are levied in December and payable in the following year in full by April 30th or in two equal installments due February 28th and June 15th. The County Treasurer bills and collects property taxes for all taxing entities within the County. The property tax receipts collected by the County Treasurer each month are remitted to the District by the tenth day of the subsequent month.

5. Capital Assets

The District defines capital assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life are not capitalized.

Property, plant and equipment are stated at cost or estimated historical cost if actual historical cost is not available.

Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

<u>Assets</u>	<u>Years</u>
Buildings & improvements	30
Improvements other than building	5-30
Distribution and collection systems	30
Vehicles	5
Office equipment	5

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The District does not have any items that qualify for reporting in this category at December 31, 2019.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of this item. The item, unavailable property tax revenue, is reported on the District's Statement of Net Position. This amount is deferred and recognized as an inflow of resources in the period the amount becomes available.

SilverCreek Water and Sanitation District
Notes to the Financial Statements
December 31, 2019 and 2018
(Continued)

I. Summary of Significant Accounting Policies (continued)

C. Financial Statement Accounts (continued)

7. Net Position

Net position represents the difference between assets, liabilities, and deferred inflows (outflows) of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets and increased by any unspent proceeds from related borrowings. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is reported as unrestricted.

The Authority applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

8. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the District's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.

II. Stewardship, Compliance, and Accountability

A. Budgetary Information

In the fall of each year, the District's Board of Directors formally adopts a budget with appropriations by fund for the ensuing year pursuant to the Colorado Local Budget Law. The proprietary fund was adopted on a non-GAAP budgetary basis and has been reconciled to a GAAP basis in the financial statements. The fund has been split further into operations and capital funding for governance purposes.

Annual appropriations are adopted for all funds. Expenditures may not legally exceed appropriations at the fund level and all appropriations lapse at year-end.

As required by Colorado statutes, the District followed the required timetable noted below in preparing, approving, and enacting its budget for 2019.

1. District's management submitted a recommended budget that detailed the necessary revenues needed along with other available revenues to meet the District's operating requirements.
2. Prior to December 15, 2018, after a required publication of "Notice of Proposed Budget" and a public hearing, the District adopted the proposed budget and an appropriating resolution that legally appropriated expenditures for the upcoming year.

Notes to the Financial Statements
December 31, 2019 and 2018
(Continued)

II. Stewardship, Compliance, and Accountability (continued)

A. Budgetary Information (continued)

3. After adoption of the budget resolution, the District may make the following changes: a) approve supplemental appropriations to the extent of revenues in excess of estimated revenues in the budget and approve emergency appropriations; and reduce appropriations for which originally estimated revenues are insufficient.

III. Detailed Notes on All Funds

A. Deposits

As of December 31, 2019 and 2018, the carrying amount of the District's bank deposits was \$1,273,441 and \$1,006,212 respectively. Colorado State statutes govern the entity's deposit of cash. For deposits in excess of \$250,000, Colorado Revised Statutes require the depository institution to maintain collateral on deposit with an official custodian (as authorized by the State Banking Board). The Colorado Public Deposit Protection Act (PDPA) requires the state regulators to certify eligible depositories for public deposit. The act requires the eligible depositories with public deposits in excess of the federal insurance levels to create a single institutional collateral pool of obligations of the State of Colorado or local Colorado governments and obligations secured by first lien mortgages on real property located in the State. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the assets in the pool must be at least equal to 102% of the uninsured deposits.

B. Deposits and Investments

Colorado statutes specify investments instruments in which local governments may invest which include:

- Obligations of the United States and certain U.S. Government agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Participation with other local governments in pooled investment funds (trusts), these trusts are supervised by participating governments. (These investments are not categorized by risk)

District policy is to hold investments until maturity.

(Continued)

III. Detailed Notes on All Funds (continued)

B. Investments (continued)

The District has addressed the following risks as noted:

Credit Risk – State statutes authorize the District to only invest in bank deposits, general obligations of the U.S. Government and its agencies, repurchase agreements of less than 180 days and collateralized by U.S. Treasury or Federal Instrumentality Securities with a maturity not exceeding 5 years, highest rated commercial paper, certain bankers acceptances, local government investment pools, money market funds and certificates of deposit. The District’s policy is to restrict investments to only those permitted by state statute.

Concentration Risk – Investment diversification is utilized to avoid unreasonable risks inherent in overinvesting in specific instruments, individual financial institutions or maturities. The District’s investments consist entirely of certificates of deposit within three financial institutions. However, these deposits are made with varied maturity dates and are collateralized for amounts over insured limits as required under Colorado State Statutes.

Interest Rate Risk – Colorado Revised Statutes limit the District’s investment maturities to 5 years or less from the date of purchase. This limit on investment maturities is a means of limiting exposure to fair values arising from interest rates. The District’s investment policy is to follow the State Statute in order to reduce interest rate risk.

Fair Value of Investments – The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- *Level 1:* Quoted prices for identical investments in active markets
- *Level 2:* Observable inputs other than quoted market prices; and.
- *Level 3:* Unobservable inputs

Unrealized gains / losses were \$0, which reflects the change in fair market value of investments. At December 31, 2019, the District had the following recurring measurements:

Investments Measured at Net Asset Value	Total
Colotrust	1,076,844

D. TABOR Amendment

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20; commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of any expiring tax, or tax policy change directly causing a net tax revenue gain to any local government.

In May 2000, the District's electorate approved a change in the mill levy which included approval to *"collect, retain and expend all revenues and other funds collected from any source during 1999 and each subsequent year, notwithstanding the limitations of Article X, Section 20 of the Colorado Constitution, the 5.5% limitation under Section 29-1-301 C.R..S. or any other law."*

The Authority's Establishing Contract requires the Authority to be operated as an enterprise within the meaning of Colorado Constitution Article X, §20 ("TABOR"). The Authority believes it is exempt from the requirements of TABOR. However, TABOR is complex and subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits, will require judicial interpretation.

At December 31, 2019 and 2018, the District had \$9,000 and \$8,000 restricted as Emergency Reserves as required by Article X, Section 20 of the Colorado Constitution.

IV. Other Information

A. Granby Sanitation District/Town of Granby

Additional tap fees are collected on behalf of Granby Sanitation District and the Town of Granby/South Service Area for water and sewer connections.

The District also charges its sewer users an additional fee per month for each sewer tap in service. This additional fee is paid to the Granby Sanitation District and Town of Granby/South Service Area for the processing of sewer waste by the Granby Sanitation facility.

These amounts are collected on behalf of the Town of Granby and Granby Sanitation District and not reflected in its financial statements as District payment.

B. Retirement Plan

The District provides a defined contribution pension plan for each of its employees including the board of directors through the Colorado Retirement Association ("CRA").

Members of the board of directors not desiring to be a member of CRA are covered under the federal social security program. The total covered pension plan payroll for 2019 and 2018 amounted to \$62,803 and \$60,677 for the District employees and the board of directors, respectively.

The District provisions of the plan require that each employee contribute 6.2% of their gross salary to the plan. The District matches the employee contribution. Employees are immediately eligible to participate in the plan and are immediately vested in all matching employer contributions.

During 2019 a total of \$7,788 was contributed to the plan with \$3,894 and \$3,894 contributed by the employees and the District, respectively. During 2018 a total of \$7,524 was contributed to the plan with \$3,762 and \$3,762 contributed by the employees and the District, respectively. There were no forfeitures during 2019 or 2018.

C. Deferred Compensation Plan

Employees of the SilverCreek Water and Sanitation District may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments).

The deferred compensation plan is available to all employees of the District. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency.

SilverCreek Water and Sanitation District
Notes to the Financial Statements
December 31, 2019 and 2018
(Continued)

IV. Other Information (continued)

C. Deferred Compensation Plan (continued)

In accordance with recent changes to the Internal Revenue Code, Section 457(G), all deferred compensation and income attributable to the investment of deferred compensation amount held by the Trustee are no longer property of the District and are not subject to the claims of the District's general creditors. All assets and income of the plan are held in trust for the exclusive benefit of the participants and their beneficiaries, respectively.

V. Subsequent Events

Management has evaluated subsequent events through July 2, 2020, the date these financial statements were available to be issued.
